Betrifft: EU-Fragebogen Passenger Rights in Bus and Coach Transport

Bezug: Ihr Schreiben vom 06.06.2023
zuständige Referentin: Doris ARTNER-SERVERIN

Sehr geehrte Frau Artner-Severin,

die Arbeiterkammer Tirol bedankt sich für die Übermittlung der oben angeführten EU-Konsultation.

In der Beilage übersenden wir diesen mit Informationen, soweit uns diese zur Verfügung stehen.

Dabei wird darauf hingewiesen, dass wir insbesondere aufgrund des eingeschränkten Anwendungsbereiches der hier relevanten Bestimmungen und des Tiroler Marktes für Busunternehmen, über keine statistischen Daten verfügen. Ferner liegen uns keine relevanten Informationen zu spezifischen abgefragten Punkten, etwa Erfahrungen mit NEB, vor.

Wir möchten die Gelegenheit nutzen, uns im Bereich der EU-Buspassagierrechte-VO für eine Lockerung der umfassenden Einschränkungen, insbesondere der erforderlichen Fahrdistanz (siehe punktuell auch den Fragebogen) und für Nachbesserungen, insbesondere für den Bereich der Ankunftsverspätung, auszusprechen.

Diese Einschränkungen werden als wesentlicher Grund gesehen, dass es insgesamt nur wenige buspassagierrechtliche Anfragen und Anwendungsfälle gibt, trotzdem es – wie in anderen Transportbereichen – regelmäßig zu Störungen und dadurch bedingten Schäden für Passagiere kommt.

Wir möchten daher anregen, auch diese – teilweise über den Fragebogen hinausgehenden – Forderungen gegenüber der Europäischen Kommission und den beauftragten Consultingunternehmen zu kommunizieren.

Wir ersuchen um Berücksichtigung und verbleiben

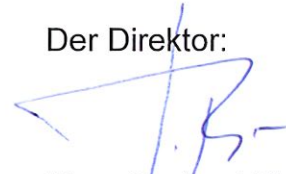

mit freundlichen Grüßen

Der Präsident:

Erwin Zangerl

Der Direktor:

Targeted consultation on Passenger Rights in Bus and Coach Transport

Fact-finding study on passenger rights in bus and coach transport

OVERVIEW OF CONSULTATION

The European Commission's Directorate-General for Mobility and Transport (DG MOVE) has appointed a Consortium led by PwC, with TIS and Steer to carry out a **fact-finding study on passenger rights in bus and coach transport**.

The overall aim of the study is to: assess the **evolution of the bus and coach market**; **gather** data on the **current level of protection of passengers in bus and coach transport** for scheduled services of less than 250 km; identify the **concerns of the relevant stakeholders** concerning the rights of passengers in bus and coach transport; find **solutions to identified issues or legal gaps of Regulation EU no. 181/2011**.

The ultimate goal is to **prepare possible new rules for passenger rights in bus and coach transport** and/or identify whether any **change to the passenger rights framework** is needed to better suit the recent market evolution.

Under this initiative, the Commission is gathering information on the following points:

- [The bus and coach market evolution in the past five years](#);
- [National laws regarding the protection of passenger rights](#);
- [Data on delays in bus and coach journeys, national laws on carriage of luggage, carriers' policies on carriage of luggage and liability of luggage, data on luggage stolen, lost or damaged](#);
- [PRM assistance during bus and coach travel and on terminals, including disability awareness training for assistance staff](#);
- [Enforcement of passenger rights and complaint handling](#).

PURPOSE OF THE CONSULTATION

This questionnaire is part of the targeted consultation activities for the fact-finding study that the appointed Consortium is conducting on behalf of the European Commission, DG MOVE. The objective of the questionnaire is to collect stakeholders' views on the above-mentioned issues and it is used to collect as much quantitative information as possible. You are invited to reply on behalf of your organisation; one reply per organisation is required.

Please note that the inputs collected through the online questionnaire will potentially lead to the review of the bus and coach passenger rights framework, therefore, your participation is crucial for the success of the project. Additionally, as a thank-you for the time spent to complete the online questionnaire, upon request we will share an extract of the key results of the targeted consultation to interested parties.

The replies will only be used for the purposes of this study and the internal work of the European Commission. Access to your personal data is provided to the European Commission staff responsible for carrying out this processing operation and to authorised staff according to the "need to know" principle. Such staff abide by statutory, and when required, additional confidentiality agreements. If you wish to provide information which you consider to be confidential, please feel free to contact the contractors to discuss any such concerns (it_eu_busandcoach@pwc.com or raoul.brancaccio@pwc.com).

Note that this survey has been structured so that you are only asked the questions relevant for your stakeholder group. Not a single question is mandatory. At the end of each page you will have the opportunity to upload any documents that you think could be useful for this study.

INSTRUCTIONS TO COMPLETE THE ONLINE QUESTIONNAIRE

1. To access the survey, use this [link](#).

At the start of the survey, please **select the stakeholder group you belong to**, and the survey will redirect you to the relevant questions. Fill in relevant sections to the best of your abilities.

2. You do not need to complete the survey in a **single session**, and you may retrieve the survey where you left off in the following ways:

- (Recommended) After partially filling the survey, **proceed to the last page and click on “save and submit” bottom**, after which you will be asked to **insert your email** address. Then **a link will be sent to the inserted email**, through which you can always re-access the survey. It is very important that you provide your correct email, otherwise the answers will be submitted anonymously, and you will lose the possibility to edit the answers.
- You may also re-access your incomplete survey without submitting it, as long as you do it with the same browser and your device saves cookies. However, **the previous method is recommended to avoid loss of data** in case cookies are deleted or in case you re-access the survey from another device/browser.
- Please note that you **cannot go backwards on the questionnaire and edit** your given answers **unless you save and submit** them (explained in the first point above). The second way will only allow you to respond to the questions that were left unanswered.

3. Even though the questionnaire is in English, you may also fill it in in other EU languages. However, it will facilitate our task if you fill it in in English.

If you wish to download the **word version of the questionnaire**, please follow the instructions below:

- **Insert your personal details**, at least the mandatory ones that are: name of the organisation, country, and stakeholder group;
- Continue until you reach a page with the following sentence: **“If you wish to download and print the questionnaire, please find the word version here”**. On the word “here” **a link is inserted to download the word version**.

The reason why we ask you to insert your personal details first is because both the online and offline versions of the questionnaire are **customized based on the stakeholder groups**. Hence, each stakeholder group has access to a different set of questions.

The effects of major crises on the bus and coach market

Note: for the purpose of this questionnaire, when referring to “major crisis”, we shall take into consideration at least one of the following definitions:

- A) An alignment with the definition in the Package Travel Directive Art. 12.2.: ‘unavoidable and extraordinary circumstances’ occurring at the place of destination or its immediate vicinity and significantly affecting the purpose of the journey, or which significantly affect the carriage of passengers to the destination’. More information on this definition can be obtained here.
- B) A definition strictly defining the circumstances, limiting them to: i) warfare at the place of departure or destination or its immediate vicinity; ii) terrorist attack at the place of destination or its immediate vicinity; iii) natural disaster, such as major earthquake or flood, at the place of destination or its immediate vicinity, prohibiting leisure stays; or iv) major health risk at the place of departure or place of destination or its immediate vicinity, limiting the possibility of travel.
- C) A right to cancellation based on national travel warnings concerning the passenger’s destination issued by the Member State of departure (there are currently no harmonized rules for such travel warnings, and they could therefore vary between Member States).
- D) A public health emergency of international concern, in line with Article 1.1 of the WHO International Health Regulations, affecting not only the place of destination and its immediate vicinity but also the place of departure.

Do you collect data on the number of self-cancellations by passengers due to major crises?

- Yes
- No

Beyond the level of protection set out in Regulation (EU) No 181/2011, is there some bus and coach passenger rights legislation which is dependent on the distance travelled by passengers? Please explain.

- **§ 41. KfI-Bef Bed states the reimbursement of partial ticket prices in relation to the section of the distance, where the journey is interrupted by the bus company.**
-

Targeted consultation on Passenger Rights in Bus and Coach Transport

Are there specific guidelines or legislative requirements for bus and coach passenger rights under PSO services in your Member State/regional or local area?

- Yes
- No

If you selected “Yes” in the previous question, please describe these guidelines or legislative requirements for bus and coach passenger rights under PSO services or provide a link we could refer to.

ÖPNRV-G 1999: [see link above](#)

Regarding the threshold of 250km set out in the Reg. EU 181/2011, would you change such threshold to increase or reduce the coverage of the passenger rights framework?

- Yes
- No

If you selected “Yes” in the previous question, on how many kilometres would you set such threshold?

- [No threshold would be easier to understand and apply as well as strengthen passenger rights.](#)
-

Is there a registry of bus and coach public service obligations contracts in your Member State/regional or local area?

- Yes
- No

- [We have no data on that issue.](#)

If you selected “Yes” in the previous question, please provide us with a link.

What legal gaps have you identified related to the protection of bus and coach passenger rights in your Member State?

Please provide a link to bus/coach delay related databases.

Please explain the possible impact for your organisation/operators of introducing compensation due to delays on arrival.

Please explain under which circumstances a compensation could be foreseen for delays on arrivals and what you consider a fair compensation.

With reference to the previous question, please explain any circumstances under which this compensation would be waived.

Targeted consultation on Passenger Rights in Bus and Coach Transport

Please explain the proportionality between the procedure to get reimbursement and compensation and the ease of getting it.

Re-routing in case of bus and coach travel disruption

Please select the option that best represents how you reroute passengers who experience travel disruptions.

- Using your own services
- Using your competitors' services

Please explain how you interpret “at the earliest opportunity” of Regulation EU 181/2011.

How many services have you rerouted in 2022 (and if not available in 2021)?

	2021	2022
Number of services rerouted		

Please explain what are the cost that you incur for rerouting and journey continuation of passengers.

Please explain how the time threshold of the [Regulation EU 181/2011](#), guaranteeing reimbursement or rerouting following an overbooking, cancellation or delay of more than 120 minutes from the estimated time of departure impact on your rerouting policies and decisions.

Please provide examples of good practices, if any, on how to fulfil the obligation of rerouting and rebooking effectively and efficiently.

How would you recommend that re-routing/journey continuation is done in a bus and coach journey?

How could re-routing by other bus and coach carriers be implemented?

In Regulation 181/2011, passengers only have rights for delayed departing bus services, but not for delayed services on arrival. Could bus and coach passengers have some rights regarding delays on arrival, considering the context of road safety? Please explain.

What do you suggest should be considered as ‘comparable condition’ for a re-routing ‘at the earliest opportunity’?

What role do digital tools play in your work?

A vital one.

How easy is it to access the services of an ADR via digital means?

- Extremely difficult
 - Somewhat difficult
 - Neither easy nor difficult
 - Somewhat easy **Remark: This obviously depends on the current ADR-body! The APF, responsible for bus passenger rights connected to Austria, is only somewhat easily accessible due to many upload restrictions and irrelevant data. A better example would be the German SÖP.**
 - Extremely easy
 - I don't know
